Product Description

Running presentations and organizing daily work becomes simpler and more orderly. The dry-erase magnetic surface lets you present content comfortably and quickly wipe away notes with a sponge or paper towel, speeding up the pace of work.

Magnets attach easily, and the board also works with other magnetic accessories such as printed overlays. The included shelf provides convenient storage for accessories and small supplies.

The aluminum frame with rounded corners increases safety and stability, while customization options - such as a printed grid, map, or company logo - let you adapt the board to your organization's needs and the way it is used.

Product Description

A practical solution for presenting content in meeting rooms, offices, and other work spaces. The matte ceramic surface reduces light reflections and allows the board to be used as a projection screen, ensuring good image visibility even in bright rooms. At the same time, its dry-erase magnetic properties allow for note-taking and displaying materials with magnets.

The construction is completed with a durable anodized aluminum frame that provides stability and an attractive finish.

The board can be mounted vertically or horizontally to match the layout of the space and how content will be presented. A 25-year surface warranty confirms its high quality and durability.

LIGHTWEIGHT CONSTRUCTION

NATURAL MATERIALS

Product Description

A magnetic board in a wooden frame is a practical aid for organizing work and daily tasks. The smooth surface allows for comfortable writing with markers and quick erasing of notes, making it easy to explain topics and record key information.

Thanks to its magnetic properties, materials, illustrations, documents, or notices can be attached to it. The natural wooden frame provides durability and an attractive appearance. The board works well in offices, service premises, and beyond.

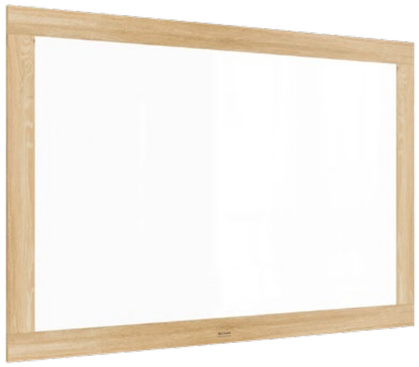
Magnetic Whiteboard

SERIES: DESIGN



Product Description

An elegant solution for presenting information and organizing work in representative spaces. The white, lacquered dry-erase magnetic surface makes it easy to create notes, plans, and announcements, and to display materials with magnets. The easy-to-clean surface supports comfortable everyday use.

The solid frame, finished in an oak shade, gives the board a stylish look that fits well into modern interiors. It suits an executive office, reception area, secretariat, or meeting room - anywhere function should go hand in hand with style.

NATURAL MATERIALS

Product Description

The VERT board is a mobile, vertical solution for organizing work and presenting information. Its double-sided, dry-erase magnetic surface allows you to write with markers, quickly wipe off notes, and attach materials with magnets.

It is available in a height of 137 or 167 cm, fitted with locking casters for easy movement, and a solid wooden frame that ensures stability. It is a modern alternative to traditional flipcharts, ideal for offices, meeting rooms, and HoReCa venues. Any custom print - a photo, logo, or graphic - can be applied to the board. It is also available with a black frame or a chalkboard surface.

TOOL-FREE ASSEMBLY

EASY TO MOVE

Product Description

Stay in full control of the information you present, with messages that remain clear and easy to read. The dry-erase magnetic surface allows convenient note-taking as well as attaching printouts, photos, and notices, so all materials can be organized in one place. The included shelf keeps markers and other accessories close at hand.

Depending on your needs, mobile versions on casters or stationary models are available, as well as versions with fold-out arms that provide extra space for information materials. The sturdy aluminum construction guarantees durability, and height adjustment makes it easy to fit the setup to the display location. The flipchart is a convenient tool for presenting notices and information in an office, service point, or any other work space.

PROJECTION FUNCTION

MOBILE CONSTRUCTION

Product Description

A versatile tool for work and presentations. The mobile frame on casters makes it easy to reposition the board as needed - move it closer to your audience, use it for team work, or wheel it to another room.

The dry-erase magnetic surface allows for comfortable note-taking with markers and attaching materials with magnets. Notes can be wiped off quickly, making it easy to move smoothly between topics.

The stable anodized-aluminum frame ensures durability and safe use, and caster locks prevent the board from shifting. The double-sided rotating writing surface provides more room for notes and for presenting content.

Magnetic Triptych Board

SERIES: TR

Product Description

Gain more room for content and full freedom in running your session. Fold-out wings significantly increase the working surface, letting you cover several topics at once without erasing earlier notes. Choose between a white dry-erase or a green chalk variant - both with a magnetic surface that lets you quickly attach materials and printed

overlays that support learning. A personalization option is also available, adding your own educational print to better match the board to the nature of your classes.

The sturdy construction with an anodized aluminum frame ensures durability and good looks for years, while safe corners add comfort during everyday use. The included shelf provides quick access to the accessories you need.

Educational Board

SERIES: TE/PL

DRY-ERASE SURFACE

MAGNETIC SURFACE

EDUCATIONAL FUNCTION

SAFE CORNERS

Product Description

The educational board is available in two variants: with a printed pattern or with a replaceable overlay. Choose from a grid, single ruling, triple ruling, five-line staff, or coordinate grid.

The board's dry-erase magnetic surface allows comfortable writing with markers and attaching materials with magnets. It is durable, easy to clean, and built for intensive use.

The aluminum frame provides stability and an attractive appearance. The advantage of the replaceable-overlay version is that it can be quickly removed, giving you a clean surface for taking notes.

Tactical Board

SERIES: SPORT

Product Description

The ALLboards tactical board makes it easy to present information and plan strategy. Its magnetic, dry-erase surface lets you write with markers and attach magnets, so you can easily map out tactics, player positions, and play patterns.

It is available in many variants - as a wall board, flipchart, mobile model on casters, coach's board, or clipboard - allowing you to match the solution to the specific application. It works well in sports clubs, academies, and training centers, supporting more effective training and better preparing players for the game.

Magnetic Overlay

SERIES: NM

Product Description

The magnetic overlay is a practical accessory that makes it easier to work with and present content on a board. Its dry-erase magnetic surface allows information to be written with a marker and quickly wiped off, so the overlay can be reused many times. The entire back is coated with a magnetic film, giving good adhesion to magnetic boards such as white, ceramic, mobile, or triptych boards. The overlay can be easily placed on a board and, if needed, quickly removed or repositioned.

The product is available in various printed patterns, including a five-line staff, grid, triple ruling, or coordinate grid, supporting a wide range of uses.

Self-Adhesive Overlay

SERIES: NS

Product Description

The ALLboards self-adhesive overlay can serve as an ultra-thin whiteboard. The back is coated with an adhesive layer, letting you attach it to a chosen wall or any other smooth surface - quickly, conveniently, and without drilling.

The dry-erase surface allows you to create notes and plans, and notes can be easily removed with a sponge, cloth, or paper towel. This functional solution works well in offices, service points, homes, and anywhere convenient organization and quick information sharing matter.

Product Description

Everyday time and task management becomes simpler with the ALLboards magnetic planner. The lacquered dry-erase surface lets you write comfortably with markers and quickly wipe off notes with a sponge or paper towel, while magnets easily hold important information, photos, or to-do lists in place.

The elegant aluminum frame, protected against corrosion, ensures stability and resistance to damage. The planner is available in weekly, monthly, or yearly layouts, in various sizes and language versions, so you can easily match it to your needs. This versatile solution works well both in the office and at home as a convenient tool for planning and presenting information.

As part of personalization, the planner can be prepared in a different language version, tailored to the client's needs.

CHALK SURFACE

NON-MAGNETIC SURFACE

STURDY CONSTRUCTION

NATURAL MATERIALS

Product Description

Presenting information and advertising becomes more convenient and eye-catching with chalkboards. Made from a durable HDF panel, the surface allows you to write freely with chalk or chalk markers, and content - menus, offers, or directions - can be updated on the fly and easily kept clean.

The elegant wooden frame, lacquered in brown while retaining the natural wood-grain texture, ensures stability and an attractive appearance. Mounting holes on the back allow the board to be hung vertically or horizontally, fitting any space.

This versatile solution works well in a restaurant, cafe, shop, bar, or office, and also at home as a creative board for children. Available in various sizes and frame colors.

Waterproof Chalkboard

SERIES: MTB

WATERPROOF SURFACE

MAGNETIC SURFACE

STURDY CONSTRUCTION

NATURAL MATERIALS

Product Description

The waterproof magnetic chalkboard is designed for outdoor use - fully resistant to moisture, rain, and changing weather conditions, while also working well at home, in the office, or in a venue.

The magnetic surface, made of melamine-coated chalkboard steel, allows writing with chalk or chalk markers and attaching notes and documents with magnets. The sturdy, varnish-protected wooden frame ensures durability even with prolonged exposure to rain and sun, and mounting holes allow the board to be hung vertically or horizontally.

Ideal for a terrace, restaurant garden, or venue entrance - as a menu, notice, or special-offer board. Available in various sizes.

Chalkboard ECO

SERIES: TB_ECO

CHALK SURFACE

ECONOMICAL SOLUTION

STURDY CONSTRUCTION

NATURAL MATERIALS

Product Description

Made from a solid HDF panel, the ECO chalkboard is a great choice for those who value practical solutions. Its slim wooden frame shows off the natural wood grain, giving it a light, elegant character without sacrificing durability. Mounting holes on the back let you hang the board either vertically or horizontally, depending on your layout.

The product works well in food-service venues, service points, and offices as a place for current notices, price lists, or promotions, and at home as an outlet for creative expression. Available in various sizes and frame colors - natural or black.

Sidewalk Sign

SERIES: PK

CHALK SURFACE

NON-MAGNETIC SURFACE

STURDY CONSTRUCTION

NATURAL MATERIALS

Product Description

The sidewalk sign is an excellent product for advertising and presenting information. Its double-sided black chalkboard is made from a high-density HDF panel. You can write comfortably on it with chalk or chalk markers, updating content - menus, offers, or directions - on the go.

The elegant wooden frame provides stability and an attractive look. It is available in several finishes (lacquered, natural) and colors: white, black, natural, pink, or brown. The sign is fully ready to use straight out of the box - no assembly required - and comes with a connecting chain. This versatile solution works well for restaurants, cafes, shops, bars, and other businesses.

MAGNETIC SURFACE

FABRIC SURFACE

CORK SURFACE

SAFE CORNERS

Product Description

The information display case is a practical solution for presenting important information in an office or service space.

It allows for clear display of notices, announcements, schedules, achievements, and event information. The lockable case protects materials while keeping them clearly visible to staff and visitors.

The model is available with a cork, fabric, or dry-erase magnetic surface, letting you match the presentation style to your organization's needs. Depending on the chosen variant, content can be pinned, attached with magnets, or written directly on the surface. The construction is enclosed in a durable anodized-aluminum frame that ensures stability and an attractive appearance.

ACOUSTIC PROPERTIES

Product Description

A cork board in a wooden frame is an excellent choice for presenting information in an office or service space. The natural, high-quality cork surface lets you pin up notices, notes, bulletins, and documents with pushpins. Its sturdy build ensures durability and an attractive appearance even under intensive use, and the cork helps reduce echo in the room.

The model is finished with an attractive natural-wood frame that gives it a classic character. Versions with colored cork surfaces and frames, printed graphics, and non-standard shapes are also available. The board works well in offices, corridors, receptions, and other shared spaces. It can be mounted vertically or horizontally.

Felt Panel

SERIES: FELT

Product Description

Felt panels are a practical solution for creating an information space in any interior. They turn a wall into a place for displaying notices, notes, documents, or visual materials. The felt surface lets you pin up content with pushpins, so information can be easily updated and changed. The panels come with a self-adhesive mounting layer, allowing convenient tool-free mounting on a wall or other smooth surface. This makes it easy to arrange the layout to fit the available space.

The modern look and range of color options mean the solution also serves a decorative purpose. Felt additionally helps reduce echo, improving acoustic comfort in a room.

DRY-ERASE SURFACE

MAGNETIC SURFACE

STURDY CONSTRUCTION

NATURAL MATERIALS

Product Description

The COMBI board combines two functional surfaces - cork and dry-erase magnetic. The first lets you conveniently pin up notes, notices, or documents with pushpins; the second allows writing with a dry-erase marker and attaching materials with magnets.

The board is made of two equal sections, and the stated size refers to the total product surface. Thanks to its versatile construction it can be mounted vertically or horizontally, and the cork and magnetic sides can be arranged in either order to suit your needs.

This convenient solution works well anywhere quick access to different ways of presenting content matters - at home, in the office, or in a service space.

COMBI Board

SERIES: 3-in-1

DRY-ERASE SURFACE

MAGNETIC SURFACE

CHALK SURFACE

NATURAL MATERIALS

Product Description

Everyday task organization gets a new dimension with the COMBI 3-in-1 board, which combines three surfaces in a single product: a white dry-erase magnetic surface, a black magnetic chalk surface, and a cork surface - without the need to buy several separate boards.

Write with a dry-erase marker or chalk, pin up notes with pushpins, and attach materials with magnets on two of the surfaces. Use the middle section as a weekly planner.

The sturdy black frame provides stability and suits any interior, and the board can be hung vertically or horizontally. It works well at home, in the office, at a reception desk, hotel, or service venue. Available in 60x40 cm and 90x60 cm sizes - also a great gift idea.

ANTI-GLARE

MAGNETIC SURFACE

HIGH-END LOOK

TEMPERED GLASS

Product Description

A modern tool for work and presenting multimedia materials. The matte glass surface lets you project an image directly onto it without a separate screen, while also allowing you to write with markers and attach materials with neodymium magnets. A single surface combines the function of a projection screen and a note-taking area, making it easier to discuss topics during meetings.

The matte surface minimizes glare and supports clear viewing of projected content. Tempered glass ensures durability, resistance, and safety. The board works well in offices and studios, combining the ability to present materials, take notes, and display extra content during meetings.

Magnetic Board

SERIES: METALboards

Product Description

The METALboards magnetic board combines function with interior decor. The steel surface lets you attach any kind of magnet, and two available variants suit different needs: a white, glossy dry-erase board ideal for writing with markers, and a black, matte chalk board with a surface for writing with chalk or a chalk marker.

The modern, frameless construction gives the board a light, minimalist look, and a simple mounting system lets you hang it vertically or horizontally to fit any space.

Elegant white adds brightness and lightness to an interior, while deep black introduces a modern, stylish accent - both variants work well in a kitchen, office, or children's room. The board is available in various sizes.

Glass Kitchen Board

SERIES: DK & FC

Product Description

The glass board makes everyday kitchen work easier - its smooth, odor-free surface prevents food residue and bacteria from getting in, and its resistance to high temperatures lets you use it as a trivet for hot cookware, a tray, or a shield next to the stove.

Tempered glass, 4 mm thick, with ground edges and rounded corners, ensures safety and durability, while rubber feet provide stability.
A fade-resistant print keeps a realistic look for years. Available in various sizes and patterns.

SERIES: HC

Product Description

The glass panel is useful for cutting, protecting the stovetop, and as a shield when working with hot cookware - its smooth, odor-free structure limits the buildup of food residue and bacteria. Resistance to high temperatures also lets you use it as extra worktop space or a tray.

Tempered glass, 4 mm thick, with ground edges and rounded corners, guarantees safety and durability, and rubber feet provide stability. A vivid, fade-resistant print keeps a realistic look for years. Available in a range of patterns. The set contains 2 pieces.

Product Description

The moderation wall is a practical solution for presenting information in any organization - from notices and materials to documents and results. Its large surface allows clear display of key content, keeping all messages visible.

Depending on the chosen surface variant, materials can be pinned with pushpins or attached with magnets. The dry-erase version also lets you write notes and messages with markers, which is useful for events, presentations, or meetings.

The stable, durable construction ensures comfortable use. The wall works well in offices, libraries, meeting rooms, and large event spaces.

Product Description

The dry-erase magnetic surface, made of a durable lacquered steel sheet, lets you write comfortably with markers and quickly wipe off notes with a sponge or cloth. Magnets easily hold notes, photos, or reminders, keeping everything important close at hand.

Available in a free-standing version finished with a sturdy frame, ideal for a desk or shelf, or as an elegant dry-erase notepad with a soft-touch cover - compact and easy to store when not in use. The frame of the standing version is made of anodized aluminum for stability and durability.

This versatile solution works well both at home and in the office - as a convenient spot for notes, to-do lists, or quick reminders.

Product Description

Boards in the KIDSboards series come in free-standing or wall-mounted versions. The free-standing models feature a double-sided surface and a sturdy wooden construction with a practical shelf for storing accessories such as markers, chalk, or magnets.

Decorative KIDSboards wall boards shaped like a little house are also available - white magnetic dry-erase or black magnetic chalk. They make a lovely decoration for a child's room, but above all serve as a place for writing, drawing, learning, and play.

All models are made from durable materials that ensure safe use. Free-standing boards are available in various sizes.

Product Description

Magnetic frames and self-adhesive sleeves help keep information organized. The magnetic version attaches to a magnetic board, while the self-adhesive version sticks to walls, doors, or furniture. In both cases you simply slide a sheet in to display content - no magnets or adhesive needed for the sheet itself.

Swapping sheets is fast - just lift one side of the frame, without removing it from the board or peeling it off the surface. A practical solution for the office, school, or home. The magnetic frame is available in A3 and A4 formats, and the self-adhesive version in A4. Both come in several color options.

Mounting	adhesive or magnet
Color	
Frame	none

MAGNETIC:

SKU	SIZE (A x B) [cm]	Color
RMA4B	A4	blue
RMA4BK	A4	black

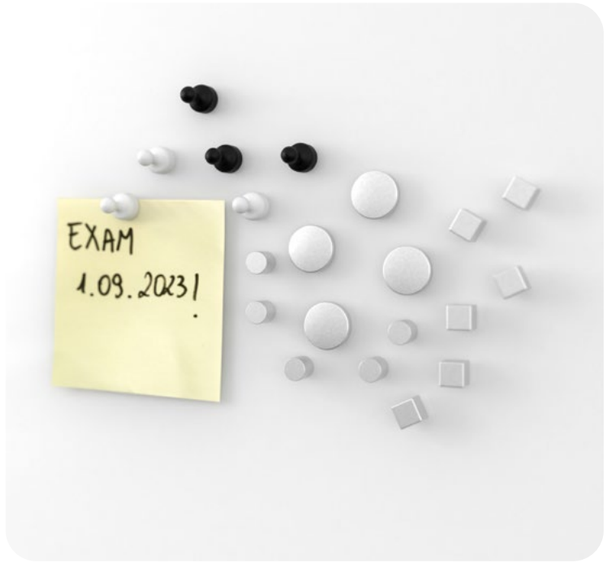
Classic Magnets - For Magnetic Boards

Magnets for magnetic boards help keep materials and other important notices organized. They let you quickly attach schedules, notes, documents, or other materials, keeping the content on the board clear and easy to read. Their attractive shape blends nicely into any space.

- Allow convenient attachment of materials to a board
- Durable ferrite magnets, resistant to intensive use
- Help keep displayed content orderly and legible
- Support the organization of everyday work



NEODYMIUM MAGNETS - FOR GLASS BOARDS

Neodymium magnets are accessories designed for working with glass boards. They hold notes, documents, posters, or other materials firmly in place. Thanks to their strong magnetic pull, they work well anywhere secure, convenient document mounting is needed.

- High magnetic strength
- Secure attachment of materials and documents
- Make it easy to quickly organize and display materials on a board
- Modern look suited to glass boards

DRY-ERASE MARKERS

Dry-erase markers are widely used accessories for everyday work. They let you create clear notes, diagrams, and drawings on a board. A rich range of colors makes it easy to highlight key information, and fine-tip variants are also available, ideal for precise notes and small annotations.

- Wide range of colors for organizing information
- Ideal for notes, diagrams, and educational drawings
- Leave no smudges after being wiped off
- Fine-tip variants also available for precise writing

CHALK MARKERS

Chalk markers let you create clear, attractive notes on chalkboards and glass surfaces. Liquid chalk delivers vivid colors and precise lines, keeping board content clearly visible to everyone. A convenient tool for everyday work and preparing legible visual materials.

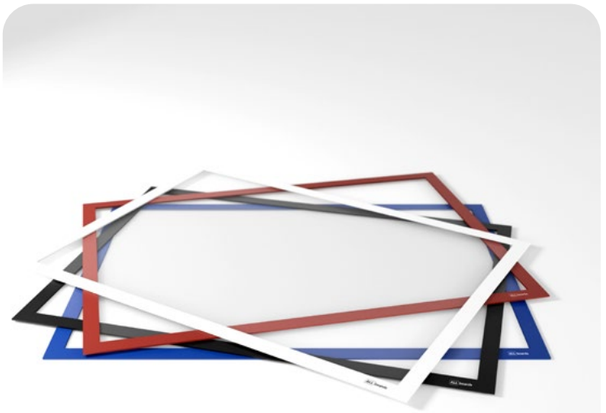
- Vivid, highly visible colors
- Precise writing and drawing
- No dust while in use
- Easy to wipe off with a damp cloth

Accessories

BOARD CARE

Board-care accessories help keep surfaces clean and ensure notes stay legible during everyday work. Regular cleaning helps a board keep its attractive appearance. The range includes magnetic erasers, cloths, and cleaning fluid that make daily use easier.

- Effectively removes marker residue
- Keeps notes on the board legible
- Convenient for everyday use
- Solutions matched to different board types



MAGNETIC FRAMES

Magnetic frames let you present information in an attractive way in offices, corridors, or reception areas. Thanks to their magnetic backing they attach easily to a board and let you swap contents quickly. A convenient solution for displaying schedules, regulations, and informational materials.

- Quick attachment of documents to magnetic boards
- Easy to swap materials
- Available in various formats and colors
- Clear presentation of notices and information

PUSHPINS

Pushpins are simple, functional accessories for cork and fabric boards that help keep a space organized. They let you quickly pin up notices, materials, schedules, or documents. Colored variants make it easy to highlight the most important information and keep the board tidy.

- Allow quick pinning of materials to cork and fabric boards
- Ideal for notices, work, and notes
- Available in various colors
- Convenient and durable for everyday use

CHALK

Chalk for boards lets you create clear notes, drawings, and examples that are easy for everyone to see. A practical aid for everyday work, making it easy to jot down information quickly and explain topics on the board. Also available in a convenient bucket that makes it easy to store chalk where it is used.

- Bold, clear writing on chalkboards
- Available in white and colored versions
- Ideal for notes, drawings, and assignments
- Convenient packaging for easy storage

WE GOT THEM ALL.
